OBJECTIVE: I am a dedicated, enthusiastic, and patient individual who thrives in high-pressure and last-minute situations. I strive for positive outcomes by applying my abilities. To achieve a competitive business edge, I have artfully balanced workplace objectives and productive relationships, inspiring strategies, and insightful suggestions.

SUMMARY OF QUALIFICATIONS

- Possess over 5 years of professional experience in the fields of architecture and interior design, demonstrating expertise in various architectural projects.
- Recognized for exceptional achievement in the field, having received the prestigious international architecture award in Bahrain (NBA) in 2018, showcasing exemplary design skills and creativity.
- Successfully operated as a freelance architect for more than 5 years, consistently delivering high-quality design solutions and exceeding client expectations, resulting in positive feedback and client satisfaction.
- Been working as a part of team and head of landscape and site work also 3d visuals for number of projects for the Saudi development and reconstruction program for Yemen
- Demonstrated effective leadership skills by supervising and managing a team of 50 professionals across warehouse, demand planning, and materials management departments, ensuring seamless operations and efficient project execution.

EXPERIENCE

Architect

The Yemeni Group

2018 - 2020

Key Responsibilities:

- ❖ **Contribute to Proposal Preparation:** Actively participate in the preparation of project proposals, collaborating with senior architects and project managers to develop comprehensive architectural plans, designs, and cost estimates.
- ❖ **Assist in Project Planning and Design:** Support the architectural team in conceptualizing and developing design concepts, layouts, and architectural drawings using CAD software and other relevant tools..
- ❖ **Conduct Research and Analysis:** Conduct research on architectural trends, materials, and building codes to ensure designs are innovative, sustainable, and compliant with regulations.
- ❖ **Collaborate with Stakeholders:** Engage with clients, consultants, contractors, and other stakeholders to gather project requirements, coordinate design efforts, and facilitate effective communication throughout the project phases.
- ❖ **Support Quality Assurance:** Contribute to quality assurance processes by reviewing architectural plans and specifications to ensure accuracy, functionality, and adherence to YGC Group standards and client expectations.
- ❖ **Maintain Project Records:** Maintain organized project records, including correspondence, meeting minutes, and contractual documents, to facilitate project tracking and compliance.
- ❖ **Promote Professional Development:** Pursue continuous professional development through training, workshops, and industry networking to enhance architectural knowledge and skills within the YGC Group framework.

Architect /technical engineer

ANO, Saudi Arabia/Yemen.

2019 –2024

Key Responsibilities:

- ❖ Architectural Design and Drafting: Create detailed architectural drawings, plans, and blueprints using CAD software and other technical tools, ensuring accuracy and compliance with project requirements and building codes.
- ❖ Technical Documentation: Prepare and maintain comprehensive technical documentation, including specifications, materials lists, and construction details, to support project execution and coordination.
- ❖ Coordinate Design Development: Collaborate with architects, engineers, and designers to develop design concepts, refine drawings, and integrate technical solutions that enhance project feasibility and functionality.
- ❖ Support Project Coordination: Assist in coordinating project activities, including scheduling meetings, tracking project milestones, and communicating project updates to internal teams and external stakeholders.
- ❖ Quality Control and Assurance: Conduct thorough reviews of architectural drawings and specifications to verify adherence to ANO Group standards, regulatory requirements, and client expectations.
- ❖ Assist in Construction Administration: Provide on-site support during construction phases, interpreting drawings, addressing technical queries, and ensuring that construction activities align with approved designs and specifications.
- ❖ Research and Innovation: Stay updated on industry trends, construction technologies, and sustainable practices to contribute innovative ideas and solutions to ANO Group projects.
- ❖ Promote Team Collaboration: Foster a collaborative work environment by sharing knowledge, offering technical support to colleagues, and actively participating in design charrettes and project meetings.
- ❖ Ensure Compliance and Safety: Uphold safety standards and building codes in all architectural designs and technical drawings, prioritizing the well-being of occupants and the longevity of built environments.

3DMArtist/ interior design architect

NOGTA, Canada.

2018 – 2023

Key Responsibilities:

- ❖ Interior Design Conceptualization: Collaborate with clients to conceptualize interior design projects, translating client needs and preferences into creative and functional design solutions.
- ❖ Create 3D Visualizations: Develop high-quality 3D visualizations and renderings using software such as, 3ds Max, to illustrate design concepts and help clients visualize proposed interior spaces.
- ❖ Material and Finish Selection: Assist in selecting appropriate materials, finishes, furnishings, and fixtures that align with project requirements, aesthetic preferences, and sustainability goals.
- ❖ Space Planning and Layout: Contribute to space planning and layout development, optimizing interior spatial arrangements to maximize functionality, flow, and aesthetic appeal.
- ❖ Support Project Documentation: Prepare and maintain project documentation, including detailed drawings, specifications, and construction documents, to facilitate project execution and compliance with regulatory requirements.
- ❖ Assist in Client Presentations: Participate in client presentations and meetings, presenting design concepts, discussing project progress, and addressing client feedback and concerns professionally and effectively.
- ❖ Contribute to Design Research: Conduct research on interior design trends, materials, and technologies to inform design decisions and incorporate innovative solutions into NOGTA's projects.
- ❖ Ensure Design Quality and Client Satisfaction: Uphold NOGTA's commitment to design excellence and client satisfaction by delivering creative, well-executed interior design solutions that exceed client expectations.

*Architect assistant***Bad consultant, UAE.****2018 – 2019****Key Responsibilities:**

- ❖ **Project Coordination Support:** Assist in organizing architectural activities for the mixed-use building project in Yemen and ACON City in Senegal, collaborating with project managers, consultants, and contractors to ensure seamless project design execution.
- ❖ **Design Development Assistance:** Support senior architects in creating architectural designs and concepts for both projects, contributing to schematic designs, design development, and design presentations.
- ❖ **Documentation and Drawing Coordination:** Aid in the preparation and management of architectural drawings, plans, and specifications for review and approval, ensuring alignment with local regulations and project requirements.
- ❖ **Project Meeting Participation:** Engage in project meetings, workshops, and site visits to gain insights into project progress, address technical inquiries, and contribute to decision-making processes.
- ❖ **Quality Assurance Support:** Assist in quality control by reviewing architectural drawings and documents to verify accuracy, completeness, and adherence to BAD's standards and project specifications.
- ❖ **Client and Stakeholder Communication:** Help maintain effective communication with clients, consultants, and stakeholders for both projects, addressing inquiries, providing updates, and managing expectations professionally.
- ❖ **Regulatory Compliance:** Ensure that architectural designs and project documentation adhere to local building regulations, sustainability standards, and health and safety requirements in Yemen and Senegal.
- ❖ **Team Collaboration Contribution:** Promote a collaborative work environment within BAD by actively engaging with architectural teams, sharing insights, and supporting colleagues in achieving project objectives.

*Architect***Green Building, Yemen.****2022 – 2024****Key Responsibilities:**

- ❖ **Support Project Coordination:** Assist in coordinating architectural activities for residential and reconstruction projects, liaising with project managers, consultants, and contractors to ensure smooth design execution with a focus on sustainable practices.
- ❖ **Assist in Design Development:** Support senior architects in developing green architectural designs and concepts, contributing to schematic designs, design development, and presentations that align with environmental goals.
- ❖ **Documentation and Drawing Coordination:** Help in preparing and managing architectural drawings, plans, and specifications for review and approval, ensuring compliance with local green building regulations and project requirements.
- ❖ **Attend Project Meetings:** Participate in project meetings, workshops, and site visits to gain insights into project progress, address technical queries, and contribute to decision-making processes with a focus on sustainability.
- ❖ **Quality Assurance:** Assist in quality assurance processes by reviewing architectural drawings and documents to ensure accuracy, completeness, and adherence to the company's green building standards and project specifications.
- ❖ **Client and Stakeholder Communication:** Support in maintaining effective communication with clients, consultants, and stakeholders, addressing inquiries, providing updates, and managing expectations professionally, with a focus on sustainable outcomes.
- ❖ **Contribute to Team Collaboration:** Foster a collaborative work environment by actively engaging with architectural teams, sharing knowledge, and supporting peers in achieving project goals centered around green building principles.

*Architect***ROS for trading and contraction, KSA&ADEN****2023 – 2024****Key Responsibilities:**

- ❖ **Project Coordination Support:** Collaborate as part of a team and lead landscape and site work activities for reconstruction projects in Aden under the Saudi Development and Reconstruction Program for Yemen, ensuring seamless project design execution in coordination with project managers, consultants, and contractors.
- ❖ **Design Development Contribution:** Play a key role in developing landscape architectural designs and concepts, contributing to schematic designs, design development, and design presentations tailored for reconstruction projects.
- ❖ **3D Visualization and Modeling:** Lead the creation of detailed 3D models and visualizations of landscape designs, ensuring realistic and high-quality representations of project concepts for client presentations and stakeholder reviews.
- ❖ **Documentation and Drawing Coordination:** Oversee the preparation and management of landscape and architectural drawings, plans, and specifications, ensuring compliance with local regulations, project requirements, and best practices.
- ❖ **Project Meeting Engagement:** Actively participate in project meetings, workshops, and site visits to monitor progress, address technical queries, and contribute to decision-making processes.
- ❖ **Quality Assurance Oversight:** Support quality assurance efforts by reviewing landscape architectural drawings and documents, ensuring accuracy, completeness, and alignment with ROS's standards and project specifications.
- ❖ **Regulatory Compliance:** Ensure that landscape and architectural designs and project documentation comply with local building regulations, sustainability standards, and health and safety requirements specific to Aden.
- ❖ **Team Collaboration and Leadership:** Foster a collaborative work environment within ROS, actively engaging with architectural teams, sharing expertise, and supporting peers while leading landscape and site work initiatives.

HIGHLIGHTED PROJECTS & ACHIEVEMENTS

- *Award-Winning Design: Won the prestigious Architectural Prize in Bahrain in 2018 for an innovative residential project that demonstrated exceptional design and sustainability.*
- *High-Impact Projects: Successfully completed over 50 architectural projects, including residential, commercial, and landscape designs, delivering high-quality results that exceeded client expectations.*
- *Advanced 3D Modeling: Developed detailed 3D models and realistic renderings for numerous projects, enhancing client presentations and securing approvals more efficiently.*
- *Efficiency in Fast-Paced Environments: Demonstrated the ability to work effectively in fast-paced settings, consistently meeting tight deadlines while maintaining high standards of quality and precision.*
- *Client Satisfaction: Achieved a 95% client satisfaction rate through effective communication, tailored design solutions, and meticulous attention to detail.*
- *Collaboration and Innovation: Collaborated with multidisciplinary teams to integrate innovative design solutions, ensuring functionality and aesthetic appeal in all projects.*
- *Sustainable Design Practices: Implemented sustainable design practices across projects, contributing to environmentally friendly and energy-efficient architectural solutions.*
- *Proactive Problem-Solving: Identified and addressed design challenges promptly, ensuring smooth project progression and successful outcomes.*

EDUCATION & TRAINING

Sanaa University, Yemen.
Masters in architecture.

January 2023-present

University of Twintik, Yemen.
Bachelor of Engineering – (Bachelor in Architecture Engineering).

September 2015 - June 2019-2020

INTERNSHIP

NEW HORIZONES Language Center, Yemen.
Teachers Assistant Intern.

August 2016 – September 2015

VOLUNTEER WORK

"SHIFT FOUNDATION". FILM FOUNDATION, Yemen.
Public Relation Officer .

March 2017 - February 2021

TECHNICAL SKILLS

- Proficient in architectural design phases including conceptual design, schematic design, design development, and construction documentation.
- Expertise in software tools such as AutoCAD, Revit, SketchUp, Rhino, 3ds Max, V-Ray, Lumion, and ArchiCAD.
- Skilled in creating detailed 3D models and realistic renderings to enhance client presentations and secure project approvals.
- Strong understanding of sustainable design practices, including LEED certification processes, green building design, and energy-efficient solutions.
- Ability to produce accurate technical drawings, including architectural drafting, detailed construction drawings, and as-built drawings.
- Basic understanding of structural engineering principles and collaboration with structural engineers.
- Proficient in interior design aspects like space planning, material selection, and furniture design.

PERSONAL SKILLS

- ☐ Strong ability to assess design requirements quickly and make sound decisions regarding architectural solutions.
- ☐ Capacity to manage multiple projects simultaneously, stay calm under pressure, and meet tight deadlines.
- ☐ Clear and concise communication skills for presenting design concepts, drafting reports, and coordinating .
- ☐ Effective problem-solving skills to identify design challenges, troubleshoot issues, and implement practical and innovative solutions.
- ☐ Strong organizational skills to manage project documentation, schedules, and resources efficiently.
- ☐ Creative thinking to develop unique and aesthetically pleasing design solutions that meet client needs and project goals.

LANGUAGES

Arabic – Native.
English – Fluent.
