Summary

Dedicated to creating thoughtful, narrative spaces, I regard interior design as the way to impact how people feel, move, and connect. With a specific focus on conceptual design and spatial narrative, I am passionate about trying out materials, form, and ambiance to create practical yet emotive spaces. I am constantly attracted to culture, architecture, and user behavior, and I try to design interiors that are both aesthetically pleasing and filled with rich, user-centered experiences in a variety of environments.

Education

IGCSE O'LEVEL

2021

Reported six syllabuses
