SUMMARY

As a graduate with a Bachelor's degree in Risk and Insurance from the College of Business Administration, I've developed a robust skill set and knowledge base, preparing me for a career in business administration. With both technical expertise and strong soft skills, I'm enthusiastic about beginning my career in this field. I aim to utilize my background in risk management and insurance to contribute significantly to organizational success. Whether it involves analyzing financial data, leading projects, or nurturing positive relationships, I'm dedicated to leveraging my skills and knowledge to drive business growth and manage risks effectively in the constantly changing landscape of business administration.
