

La Sofia Interior Design

How It All Began

In the heart of Cairo, back in 2020, We didn't just see empty spaces she saw untold stories. A blank wall was not just drywall, it was a canvas waiting for soul, movement, and light. That was the moment **La Sofia** Interior was born not just an interior design company, but a storytelling studio, turning personal vision into spatial poetry.

From Local Passion to Regional Presence

What started as sketches on paper in Egypt soon echoed across borders.

With every successful transformation, came a new opportunity first in Saudi Arabia, then in Kuwait.

La Sofia didn't expand just as a business, but as a feeling that clients connected with.

We don't just design places.

We translate who you are in to where you are.

Feel Doing It)
