PROFILE

I specialize in creating innovative 3D environments, Interior Visualizations & Animations, with extensive knowledge of 3D art creation techniques using industry-standard software. I have worked with several architectural firms as a 3D visualizer Designer from the rough sketches or my design ideas. My ability to develop the Facade design is a plus, from my past working experience am trained to perform well on the projects with close deadlines. Currently, I am looking for a firm where I can prove my talents to grow further for myself and the company I am working with.
