EXPERIENCE

• M Designs

Present

- Leading residential and commercial projects started with space planning, ending with detailed drawings.
- Hold meetings with the clients to see their vision and needs.
- Site visits to verify space measurements, openings, columns, etc.
- Prepared drafts of design projects using Revit, AutoCAD, and 3DMax.
- Produce lifelike rendered shots using advanced software (V-ray and Corona).
- Providing each client a moodboard suitable with their project. Once completion of all stages of the project, each project is provided with a detailed schedule of the used materials.
- Providing customers with a phase schedule to be more committed to deadlines

• Internship at Alghanim Engineering Consultant

Oct-Dec '2023

- Supported senior designers in client meetings and feedback meetings.
- Prepared moodboards and initial design drafts using AutoCAD.
- Assisted in creating 3D models and renderings of residential spaces

• Summer Internship at Azhar Majed Design Establishment

June - August '2022

- Participated in creating 3D models, detailed drawings and moodboards and providing renderings of residential interior spaces.
- Performed site visits to accurate space measurements of the applicable design.
- Prepared and presented the presentation for the weekly employee meetings.

ACHIEVEMENTS

- **PMU Dean's list letter**
