INTERIOR DESIGNER ENGINEER

EXPERIENCES

Artiousity Internship Program – Khobar, Saudi Arabia December 2024

Interior Architecture Team

- redesigned the interior and developed a lighting plan for an old neoclassical building, gaining insights into design processes and client collaboration.
- Designed an efficient basement office space, producing comprehensive technical drawings and 3D models; conducted a site visit for assessments.
- Contributed to a group project by designing café furniture and entrance wall, improving spatial design skills; conducted ten site visits to resolve flooring issues.
- Assigned to Converted PDF plans into AutoCAD, created a mood board for client feedback, and initiated 3D modelling for key areas, prepared a Bill of Quantities in Excel, and completed technical drawings, including elevations, unit details, power floor plans, flooring plans, and door designs, to support the overall project.
- Assigned to create detailed 3D models for house entrance doors tailored to the client's specifications, ensuring alignment with their design vision and requirements.
- Organized a team-building workshop to enhance collaboration and teamwork.
- Managed the upgrade of Adobe applications on office computers and resolved a Wi-Fi issue that arose, ensuring smooth operations and minimal disruption to workflow.

PROJECTS

Jubail Industrial College - Industrial Jubail, Saudi Arabia
2023

December

GRADUATION PROJECT: SAUDI ARTS AND MONUMENTS CULTURAL CENTER (INDIVIDUAL)

- Engage society with Saudi Arabia's rich heritage through an interactive maze showcasing historical artifacts and an art nouveau section featuring talented artists, bridging the past and present to enrich cultural connections. Selected as one of the top 3 projects in the graduating class, reflecting the quality of the work and research presented.
