EXPERTISE

- Building Information Modeling (BIM)
- Architectural Designing & Detailed Drafting
- Clash Detection & Resolution
- 3D Rendering & Visualization
- Construction Documentation
- Interior Designing
- Time Management & Collaboration
- Interior & Exterior Detailing
- Model making
- Problem Solving & Leadership
- Presentation Skills
- Critical Thinking

SUMMARY

Passionate and detail-oriented Architect with a Bachelor's degree in Architecture and hands-on experience in architectural design, 3D modeling, and BIM technologies. Skilled in both interior and exterior detailing for residential, commercial, and educational projects. Adept at collaborating with teams to develop innovative, sustainable, and client-centric designs. Looking for an opportunity in the Middle East to contribute architectural expertise and creativity to a dynamic organization.

PROFESSIONAL EXPERIENCE

Freelance Architect July 2024 – Present

- Designed interior and exterior designs for residential and mixed-use projects
- Prepared detailed architectural working drawings, 3D models and visualizations using autocad Revit, Sketchup and Lumion
- Created 3D visualizations and presentations of projects to communicate the design concepts to clients.
- Collaborated with consultancy and contractors for attaining project stability.

Intern Architect
De Earth Architects, Calicut, Kerala, India Feb 2023 – July 2023

- Assisted in 3D design development for residential and commercial projects.
- Created architectural working drawings, ensuring accuracy in design and documentation.
- Contributed to 3D visualizations and presentations for various projects.

Intern BIM Modeler
CADD Centre, Perinthalmanna, Kerala, India Aug 2024 – Nov 2024

- Developed Revit models, interfacing with AutoCAD 2D and PDF drawings.
- Prepared architectural drawings and parametric families in Revit.
- Extracted BOQs from Revit models and conducted clash tests using Navisworks, generating clash reports.
- Worked on Revit Architecture and Revit Structure modeling.
