SUMMARY

Results-driven Industrial Engineering graduate with experience in procurement, supply chain operations, and data analytics. Skilled in supplier assessment, government tender management, ERP systems, and process optimization. Certified in CAPM and Microsoft Power BI, with a proven ability to analyze data, improve operational efficiency, and support informed business decisions. Strong analytical, problem-solving, and project coordination capabilities, with a commitment to continuous improvement and organizational success.

EXPERIENCE

Beeah Group | Saudi Arabia

Procurement Intern | Tamheer Internship – GDP Program | Jan 2026 – Jun 2026

- Participated in government tenders (Open Tendering) by analyzing RFPs, preparing RFQs, and evaluating suppliers.
- Developed BOQ sheets, analyzed quotations, and ensured compliance with local content requirements.
- Managed supplier relationships, contract execution, and ensured timely delivery during the project lifecycle.
- Handled the procurement cycle via SAP (PR → RFQ → PO → GRN → Invoice) ensuring accuracy and compliance.
- Oversaw project closure activities including contract finalization, asset verification, and scrap management.
- Supported day-to-day procurement needs across departments (HR, IT, warehouses, workshops).

King Salman Bin Abdulaziz Medical City | Saudi Arabia

Industrial Engineer Intern | Cooperative Training | June 2024 – August 2024

- Monitored medical inventory using check sheets to track incoming and outgoing items.
- Used Oracle system to manage stock levels and initiate replenishment to prevent stockouts.
- Coordinated with suppliers (e.g., NUPCO) to ensure timely procurement and accurate order processing.
- Supported on-time distribution of medical supplies to hospital departments.

EDUCATION

Taibah University | Saudi Arabia

Bachelor's Degree in Industrial Engineering | GPA= 4.41/5 with Second Class Honor | 2025

OTHER

● Certifications:

- IASSC Lean Six Sigma Green Belt | IASSC | In Progress
- Microsoft Certified: Power BI Data Analyst Associate | Microsoft | February 2026
- Certified Associate in Project Management (CAPM) | PMI | Nov 2025.
- Professional Accreditation from the Saudi Council of Engineers (SCE) | SCE | July 2025.

● Technical Skills:

- Data Analysis.
- Performance Efficiency Enhancement.
- Sustainable Production Planning.
- Engineering Systems Design.
- Process Optimization
- Supply Chain Management
- Proficiency in Microsoft Office Suite

● Soft Skills:

- Communication.
- Problem-Solving.
- Decision-Making.
- Analytical Thinking.
- Critical Thinking
- Stakeholder Management
- Time Management
- Collaboration and Teamwork

● Languages: Arabic, English (STEP Score: 85).
