Professional Summary:

An Information Systems specialist targeting roles in technology, data, and artificial intelligence. The professional background was built through work in a medical environment requiring high accuracy in collecting and analyzing clinical data and delivering actionable operational insights. The reports produced contributed to enhancing the quality of healthcare services by supporting data-driven decisions. Experience extends to independent tech projects and intensive hands-on training, with a focus on analytical tools, IoT applications, and machine learning. The goal is to join technical teams focused on AI applications and enhancing digital efficiency through data-driven solutions.

Education:

- **Bachelor of Information Systems | King Khalid University | Abha**

Professional Experience:

Data Analyst | Al-Madani Hospital | Abha

- Collected medical data accurately to support clinical decision-making
- Analyzed data to identify trends and provide actionable insights
- Prepared comprehensive reports to improve healthcare service quality
- Collaborated with cross-functional teams to ensure data accuracy
- Applied analytical tools to enhance operational efficiency

Professional Training:

Data Analyst | Al-Madani Hospital in Khamis Mushait | Abha | 12 weeks

- Gathered and organized medical data for precise analysis
- Created periodic reports to support hospital operations
- Utilized analytical tools to improve service quality
- Worked with medical teams to ensure data consistency
- Developed technical skills in data processing

Training Courses:

- **ML Bootcamp** | SDAIA | 2023 | 4 weeks
- **Internet of Things** | King Khalid University | Abha | 2023 | 4 weeks
- **Cyber Security Basics** | King Khalid University | Abha | 2025 | 3 hours

Projects:

Game Development in Global Game Jam | 2023

- Designed and developed a game using Unity
- Organized Global Game Jam as part of the team
- Achieved second place in the global competition

Professional Memberships:

- **Member of Computer Club** | King Khalid University

Skills:

Personal Skills:

- | | |
