 Saudi Arabia

OBJECTIVE

Recent, computer science graduate seeking a challenging role where I can apply my technical, analytical, and communication skills to solve problems, support data-driven decisions, and contribute through effective data analysis and administrative support.

EDUCATION

NORTHERN BORDER UNIVERSITY

- Bachelor degree in Computer Science **Aug 2021 - May 2025**

WORK EXPERIENCES

Cooperative Training

- **Municipality Sector – Computer Science Department** **Sep 2024 - Oct 2024**
 - Assisted in monitoring network security and identifying vulnerabilities
 - Assisted in the development of key project reports and proposals
 - Supported the technical support team within the department
 - Developing department-related software applications, including the Hadir system

SKILLS

- Data Analysis tools
- IS Project Management
- Problem Solving
- SQL Server
- Data Visualization
- Time management

PROJECTS and ACHIEVEMENTS

Capstone Project: Wedding Hall Reservation System **May 2025**

- **Achievement:** Secured 4th place among 18 teams in a business strategy competition.
- **Description:** A digital platform designed to streamline wedding hall bookings in Saudi Arabia by connecting users and hall owners in one unified environment. The system allows users to easily set event dates, compare venue prices and services, and make reservations, enhancing the overall planning experience and reducing administrative burdens.
